

Remarks:

This amendment is submitted in an earnest effort to advance this case to issue without delay. The examiner has indicated that the case contains allowable subject matter.

The drawing has been amended to insert legends in the boxes. The legends are taken directly from the Specification and claims and do not constitute new matter.

The Title has been amended to correct a typographical error therein. Enclosed herewith is a Supplemental Application Data Sheet showing the corrected title.

The claims have been amended to eliminate all parenthetical reference characters, thereby overcoming the §112 rejection. In addition the claim language and format has been improved so that they better comply with US Rules and practice. Again, no new matter whatsoever has been inserted.

Since there is no art rejection in the case and all the formal objections and rejections have been overcome, the case is in condition for passage to Issue. Notice to that effect is earnestly solicited.

If only minor problems that could be corrected by means of a telephone conference stand in the way of allowance of this case, the examiner is invited to call the undersigned to make the necessary corrections.
